I will contact Melissa Harrison of OPA for their input.

Shaun, shall we ask David to inform Reggie, who can coordinate with OSWER?

Importance: High

Hello, All.

Richard Sisk is in the process of putting together the Administrative Record for the Gold King Mine Emergency Removal Action. The NCP requires that we make the administrative record available to the public and issue a notice of availability in a major local newspaper within 60 days of the start of on-site removal activities. **To meet the deadline, a public notice will probably have to be published this week.** I have attached a draft for your review.

Normally, we would establish a local information repository in the nearest community and notice the availability of the AR in the local newspaper. However, in this case, there are a number of communities, states and Tribes that may have an interest in accessing the information in the AR

files.

We need some guidance to move forward:

We welcome any other suggestions your might have for managing the AR files and the public

notice.

Since time is of the essence, **please respond by 3:00 pm this afternoon.**

Thanks!

Cynthia
